1. OVERVIEW

The Fashion Retail Academy's reputation and future growth are dependent on the way the Fashion Retail Academy manages and protects Personal Data. Protecting the confidentiality and integrity of Personal Data is a key responsibility of everyone within the Fashion Retail Academy.

As an organisation that collects, uses and stores Personal Data about its employees, suppliers, academic partnerships or individuals within companies, students, governors, parents and visitors, the Fashion Retail Academy recognises that having controls around the collection, use, retention and destruction of Personal Data is important in order to comply with the Fashion Retail Academy's obligations under Data Protection Laws and in particular its obligations under Article 5 of GDPR.

The Fashion Retail Academy has implemented this Data Protection Policy to ensure all Fashion Retail Academy Personnel are aware of what they must do to ensure the correct and lawful treatment of Personal Data. This will maintain confidence in the Fashion Retail Academy and will provide for a successful working and learning environment for all.

Fashion Retail Academy Personnel will receive a copy of this Policy when they start and may receive periodic revisions of this Policy. This Policy does not form part of any member of the Fashion Retail Academy Personnel's contract of employment and the Fashion Retail Academy reserves the right to change this Policy at any time. All members of Fashion Retail Academy Personnel are obliged to comply with this Policy at all times.

If you have any queries concerning this Policy, please contact our Data Protection Officer, who is responsible for ensuring the Fashion Retail Academy's compliance with this Policy.

2. ABOUT THIS POLICY

6. LAWFUL USE OF PERSONAL DATA

- 6.1. In order to collect and/or use Personal Data lawfully the Fashion Retail Academy needs to be able to show that its use meets one of a number of legal grounds. Please click here to see the detailed grounds [<https://ico.org.uk/fororganisations/guide-to-the-general-data-protection-regulation-gdpr/lawfulbasis-for-processing>]

- 6.3. The Fashion Retail Academy has carefully assessed how it uses Personal Data and how it complies with the obligations set out in paragraphs 6.1 and 6.2. If the Fashion Retail Academy changes how it uses Personal Data, the Fashion Retail Academy needs to update this record and may also need to notify Individuals about the change. If Fashion Retail Academy Personnel therefore intend to change how they use Personal Data at any point, they must notify the Data Protection Officer who will decide

whether their intended use requires amendments to be made and any other controls which need to apply.

7. TRANSPARENT PROCESSING – PRIVACY NOTICES

7.1. Where the Fashion Retail Academy collects Personal Data directly from Individuals, the Fashion Retail Academy will inform them about how the Fashion Retail Academy uses their Personal Data. This is in a privacy notice. The Fashion Retail Academy has adopted the following privacy notices: Staffing privacy notice provided by HR on joining can be found on cascade and the hub.

This will be provided as soon as reasonably possible and in any event within one month.

7.3. If the Fashion Retail Academy changes how it uses Personal Data, the Fashion Retail Academy may need to notify Individuals about the change. If Fashion Retail Academy Personnel therefore intend to change how they use Personal Data please notify the Data Protection Officer who will decide whether the Fashion Retail Academy Personnel's intended use requires amendments to be made to the privacy notices and any other controls, which need to apply.

8. DATA QUALITY – ENSURING THE USE OF ACCURATE, UP TO DATE AND RELEVANT PERSONAL DATA

8.1. Data Protection Laws require that the Fashion Retail Academy only collects and processes Personal Data to the extent that it is required for the specific purpose(s) notified to the Individual in a privacy notice (see paragraph 7 above) and as set out in the Fashion Retail Academy's record of how it uses Personal Data. The Fashion Retail Academy is also required to ensure that the Personal Data the Fashion Retail Academy holds is accurate and kept up to date.

8.2. All Fashion Retail Academy Personnel that collect and record Personal Data shall ensure that the Personal Data is recorded accurately, is kept up to date and shall also ensure that they limit the collection and recording of Personal Data to that which is adequate, relevant and limited to what is necessary in relation to the purpose for which it is collected and used.

8.3. All Fashion Retail Academy Personnel that obtain Personal Data from sources outside the Fashion Retail Academy shall take reasonable steps to ensure that the Personal Data is recorded accurately, is up to date and limited to that which is adequate, relevant and limited to what is necessary in relation to the purpose for which it is

collected and used. This does not require Fashion Retail Academy Personnel to independently check the Personal Data obtained.

8.4. In order to maintain the quality of Personal Data, all Fashion Retail Academy Personnel that access Personal Data shall ensure that they review, maintain and update it to ensure that it remains accurate, up to date, adequate, relevant and limited to what is necessary in relation to the purpose for which it is collected and used. Please note that this does not apply to Personal Data which the Fashion Retail Academy must keep in its original form (e.g. for legal reasons or that which is relevant to an investigation).

8.5. The Fashion Retail Academy recognises the importance of ensuring that Personal Data is amended, rectified, erased or its use restricted where this is appropriate under Data Protection Laws. The Fashion Retail Academy has a Rights of Individuals Policy and a Rights of Individuals Procedure, which set out how the Fashion Retail Academy responds to requests relating to these issues. Any request from an individual for the amendment, rectification, erasure or restriction of the use of their Personal Data should be dealt with in accordance with those documents.

9. PERSONAL DATA MUST NOT BE KEPT FOR LONGER THAN NEEDED

9.1. Data Protection Laws require that the Fashion Retail Academy does not keep Personal Data longer than is necessary for the purpose or purposes for which the Fashion Retail Academy collected it.

9.2. The Fashion Retail Academy has assessed the types of Personal Data that it holds and the purposes it uses it for and has set retention periods for the different types of Personal Data processed by the Fashion Retail Academy, the reasons for those retention periods and how the Fashion Retail Academy securely deletes Personal Data at the end of those periods. These are set out in the Data Retention Policy.

9.3. If Fashion Retail Academy Personnel feel that a particular item of Personal Data needs to be kept for more or less time than the retention period set out in the Data Retention Policy, for example because there is a requirement of law, or if Fashion Retail Academy Personnel have any questions about this Policy or the Fashion Retail Academy's Personal Data retention practices, they should contact the Data Protection Officer for guidance.

10. DATA SECURITY

The Fashion Retail Academy takes information security very seriously and the Fashion Retail Academy has security measures against unlawful or unauthorised processing of Personal Data and against the accidental loss of, or damage to, Personal Data. The Fashion

Retail Academy has in place procedures and technologies to maintain the security of all Personal Data from the point of collection to the point of destruction.

11. DATA BREACH

Training

11.1. Whilst the Fashion Retail Academy takes information security very seriously, unfortunately, in today's environment, it is possible that a security breach could happen which may result in the unauthorised loss of, access to, deletion of or alteration of Personal Data. If this happens there will be a Personal Data breach and Fashion Retail Academy Personnel must comply with the Fashion Retail Academy's Data Breach Notification Policy. Please see paragraphs 11.2 and 11.3 for examples of what can be a Personal Data breach. Please familiarise yourself with it as it contains important obligations which Fashion Retail Academy Personnel need to comply with in the event of Personal Data breaches.

11.2. Personal Data breach is defined very broadly and is effectively any failure to keep Personal Data secure, which leads to the accidental or unlawful loss (including loss of access to), destruction, alteration or unauthorised disclosure of Personal Data. Whilst most Personal Data breaches happen as a result of action taken by a third party, they can also occur as a result of something someone internal does.

11.3. There are three main types of Personal Data breach which are as follows:

11.3.1. **Confidentiality breach** - where there is an unauthorised or accidental disclosure of, or access to, Personal Data e.g. hacking, accessing internal systems that a Fashion Retail Academy Personnel is not authorised to access, accessing Personal Data stored on a lost laptop, phone or other device, people "blagging" access to Personal Data they have no right to access, putting the wrong letter in the wrong envelope, sending an email to the wrong student, or disclosing information over the phone to the wrong person;

11.3.2. **Availability breach** - where there is an accidental or unauthorised loss of access to, or destruction of, Personal Data e.g. loss of a memory stick, laptop or device, denial of service attack, infection of systems by ransom ware, deleting Personal Data in error, loss of access to Personal Data stored on systems, inability to restore access to Personal Data from back up, or loss of an encryption key; and

11.3.3. **Integrity breach** - where there is an unauthorised or accidental alteration of Personal Data.

12. APPOINTING CONTRACTORS WHO ACCESS THE FASHION RETAIL ACADEMY'S PERSONAL DATA

12.1. If the Fashion Retail Academy appoints a contractor who is a Processor of the Fashion Retail Academy's Personal Data, Data Protection Laws require that the Fashion Retail Academy only appoints them where the Fashion Retail Academy has

carried out sufficient due diligence and only where the Fashion Retail Academy has appropriate contracts in place.

12.2. One requirement of GDPR is that a Controller must only use Processors who meet the requirements of the GDPR and protect the rights of individuals. This means that data protection due diligence should be undertaken on both new and existing suppliers. Once a Processor is appointed they should be audited periodically to ensure that they are meeting the requirements of their contract in relation to Data Protection.

12.3. Any contract where an organisation appoints a Processor must be in writing.

12.4. You are considered as having appointed a Processor where you engage someone to perform a service for you and as part of it they may get access to your Personal Data. Where you appoint a Processor you, as Controller remain responsible for what happens to the Personal Data.

12.5. GDPR requires the contract with a Processor to contain the following obligations as a minimum:

12.5.1. to only act on the written instructions of the Controller;

12.5.2. to not export Personal Data without the Controller's instruction;

12.5.3. to ensure staff are subject to confidentiality obligations;

12.5.4. to take appropriate security measures;

12.5.5. to only engage sub-processors with the prior consent (specific or general) of the Controller and under a written contract;

12.5.6. to keep the Personal Data secure and assist the Controller to do so;

12.5.7. to assist with the notification of Data Breaches and Data Protection Impact Assessments;

12.5.8. to assist with subject access/individuals rights;

12.5.9. to delete/return all Personal Data as requested at the end of the contract;

12.5.10. to submit to audits and provide information about the processing; and

12.5.11. to tell the Controller if any instruction is in breach of the GDPR or other EU or member state data protection law.

12.6. In addition the contract should set out:

12.6.1. The subject-matter and duration of the processing;

12.6.2. the nature and purpose of the processing;

12.6.3. the type of Personal Data and categories of individuals; and

12.6.4. the obligations and rights of the Controller.

13. INDIVIDUALS' RIGHTS

13.1. GDPR gives individuals more control about how their data is collected and stored and what is done with it. Some existing rights of individuals have been expanded upon and some new rights have been introduced. It is extremely important that Fashion Retail Academy plans how they will handle these requests under GDPR.

13.2. The different types of rights of individuals are reflected in this paragraph.

13.3. Subject Access Requests

13.3.1. Individuals have the right under the GDPR to ask a Fashion Retail Academy to confirm what Personal Data they hold in relation to them and provide them with the data. This is not a new right but additional information has to be provided and the timescale for providing it has been reduced from 40 days to one month (with a possible extension if it is a complex request). In addition, you will no longer be able to charge a fee for complying with the request.

13.3.2. Subject Access Requests are becoming more and more common and are often made in the context of a dispute which means that it is crucial that they are handled appropriately to avoid a complaint being made to the ICO.

13.4. Right of Erasure (Right to be Forgotten)

13.4.1. This is a limited right for individuals to request the erasure of Personal Data concerning them where:

13.4.1.1. the use of the Personal Data is no longer necessary;

13.4.1.2. their consent is withdrawn and there is no other legal ground for the processing;

13.4.1.3. the individual objects to the processing and there are no overriding legitimate grounds for the processing;

13.4.1.4. the Personal Data has been unlawfully processed; and

13.4.1.5. the Personal Data has to be erased for compliance with a legal obligation.

13.4.2. In a marketing context, where Personal Data is collected and processed for direct marketing purposes, the individual has a right to object to processing at any time.

Where the individual objects, the Personal Data must not be processed for such purposes.

13.5. Right of Data Portability

13.5.1. An individual has the right to request that data concerning them is provided to them in a structured, commonly used and machine-readable format where:

13.5.1.1. the processing is based on consent or on a contract; and

13.5.1.2. the processing is carried out by automated means

13.5.2. This right is not the same as subject access and is intended to give individuals a subset of their data.

13.6. The Right of Rectification and Restriction

13.6.1. Finally, individuals are also given the right to request that any Personal Data is rectified if inaccurate and to have use of their Personal Data restricted to particular purposes in certain circumstances.

13.7. The Fashion Retail Academy will use all Personal Data in accordance with the rights given to Individuals' under Data Protection Laws, and will ensure that it allows Individuals to exercise their rights in accordance with the Fashion Retail Academy's Rights of Individuals Policy and Rights of Individuals Procedure. Please familiarise yourself with these documents as they contain important obligations which Fashion Retail Academy Personnel need to comply with in relation to the rights of Individuals over their Personal Data.

14. MARKETING AND CONSENT

14.1. The Fashion Retail Academy will sometimes contact Individuals to send them marketing or to promote the Fashion Retail Academy. Where the Fashion Retail Academy carries out any marketing, Data Protection Laws require that this is only done in a legally compliant manner.

14.2. Marketing consists of any advertising or marketing communication that is directed to particular individuals. GDPR will bring about a number of important changes for organisations that market to individuals, including:

14.2.1. providing more detail in their privacy notices, including for example whether profiling takes place; and

14.2.2. rules on obtaining consent will be stricter and will require an individual's "clear affirmative action". The ICO like consent to be used in a marketing context.

14.3. Fashion Retail Academy's also need to be aware of the Privacy and Electronic Communications Regulations (PECR) that sit alongside data protection. PECR apply to

direct marketing i.e. a communication directed to particular individuals and covers any advertising/marketing material. It applies to electronic communication i.e. calls, emails, texts, faxes. PECR rules apply even if you are not processing any personal data

14.4. Consent is central to electronic marketing. We would recommend that best practice is to provide an un-ticked opt-in box.

14.5. Alternatively, the Fashion Retail Academy may be able to market using a “soft opt in” if the following conditions were met:

14.5.1. contact details have been obtained in the course of a sale (or negotiations for a sale);

14.5.2. the Fashion Retail Academy are marketing its own similar services; and

14.5.3. the Fashion Retail Academy gives the individual a simple opportunity to refuse to opt out of the marketing, both when first collecting the details and in every message after that.

15. AUTOMATED DECISION MAKING AND PROFILING

15.1. Under Data Protection Laws there are controls around profiling and automated decision making in relation to Individuals.

Automated Decision Making happens where the Fashion Retail Academy makes a decision about an Individual solely by automated means without any human involvement and the decision has legal or other significant effects; and

Profiling happens where the Fashion Retail Academy automatically uses Personal Data to evaluate certain things about an Individual.

15.2. Any Automated Decision Making or Profiling which the Fashion Retail Academy carries out can only be done once the Fashion Retail Academy is confident that it is complying with Data Protection Laws. If Fashion Retail Academy Personnel therefore wish to carry out any Automated Decision Making or Profiling Fashion Retail Academy Personnel must inform the Data Protection Officer.

15.3. Fashion Retail Academy Personnel must not carry out Automated Decision Making or Profiling without the approval of the Data Protection Officer.

15.4. The Fashion Retail Academy does not carry out Automated Decision Making or Profiling in relation to its employees.

16. DATA PROTECTION IMPACT ASSESSMENTS (DPIA)

16.1. The GDPR introduce a new requirement to carry out a risk assessment in relation to the use of Personal Data for a new service, product or process. This must be done prior to the processing via a Data Protection Impact Assessment (“**DPIA**”). A DPIA should be started as early as practical in the design of processing operations. A DPIA is not a prohibition on using Personal Data but is an assessment of issues affecting Personal Data which need to be considered before a new product/service/process is rolled out. The process is designed to:

16.1.1. describe the collection and use of Personal Data;

16.1.2. assess its necessity and its proportionality in relation to the purposes;

16.1.3. assess the risks to the rights and freedoms of individuals; and

16.1.4. the measures to address the risks.

16.2. A DPIA must be completed where the use of Personal Data is likely to result in a high risk to the rights and freedoms of individuals.

16.3. Where a DPIA reveals risks which are not appropriately mitigated the ICO must be consulted.

16.4. Where the Fashion Retail Academy is launching or proposing to adopt a new process, product or service which involves Personal Data, the Fashion Retail Academy needs to consider whether it needs to carry out a DPIA as part of the project initiation process. The Fashion Retail Academy needs to carry out a DPIA at an early stage in the process so that the Fashion Retail Academy can identify and fix problems with its proposed new process, product or service at an early stage, reducing the associated costs and damage to reputation, which might otherwise occur.

16.5. Situations where the Fashion Retail Academy may have to carry out a Data Protection Impact Assessment include the following (please note that this list is not exhaustive):

16.5.1. large scale and systematic use of Personal Data for the purposes of Automated Decision Making or Profiling (see definitions above) where legal or similarly significant decisions are made;

16.5.2. large scale use of Special Categories of Personal Data, or Personal Data relating to criminal convictions and offences e.g. the use of high volumes of health data; or

16.5.3. systematic monitoring of public areas on a large scale e.g. CCTV cameras.

16.6. All DPIAs must be reviewed and approved by the Data Protection Officer.

17. TRANSFERRING PERSONAL DATA TO A COUNTRY OUTSIDE THE EEA

- 17.1. Data Protection Laws impose strict controls on Personal Data being transferred outside the EEA. Transfer includes sending Personal Data outside the EEA but also includes storage of Personal Data or access to it outside the EEA. It needs to be thought about whenever the Fashion Retail Academy appoints a supplier outside the EEA or the Fashion Retail Academy appoints a supplier with group companies outside the EEA which may give access to the Personal Data to staff outside the EEA.
- 17.2. So that the Fashion Retail Academy can ensure it is compliant with Data Protection Laws Fashion Retail Academy Personnel must not export Personal Data unless it has been approved by the Data Protection Officer.
- 17.3. Fashion Retail Academy Personnel must not export any Personal Data outside the EEA without the approval of the Data Protection Officer.
